

In this simulation, we add the dissipative force and use the k_p value that we found previously

Simulation k_p : 655 with tracking error $8.468790468635512e-06$ in 3 seconds of simulation

Simulation k_p : 655 with tracking error $4.631812862503175e-06$ in 10 seconds of simulation
